

Online Banking with Quicken® and QuickBooks®

Combine your Quicken® or QuickBooks® financial management software with your First State Bank checking, savings or money market account today, and you have everything you need to get your financial house in order.

Not currently enrolled in On-Line Banking with First State Bank? Not a Problem, visit our website, **fsbwc.com** and complete the First Time User to get started.

Once you have installed your financial management software, simply sign into your First State Bank On-Line Banking account and follow the instructions below to export your transactions!

You can also follow the instructions available with your financial management system software.

TO EXPORT TRANSACTIONS FROM THE CURRENT STATEMENT OR PREVIOUS STATEMENT:

- Click **Export Transactions** from the drop down menu under the **Transactions** button.
- Enter the necessary information.
- Choose the file export format.
- Click the **Export** button.
- Save the file to your computer.
- Follow your financial management software's instructions to import the data into your software application.

TO EXPORT TRANSACTIONS OLDER THAN THE PREVIOUS STATEMENT:

- Choose **All Transactions** from the drop down menu under the **Transactions** button.
- In the **Export** column, select the transactions you wish to export or simply click **Select All**.
- Save the file to your computer.
- Follow your financial management software's instructions to import the data into your software application.

Quicken® and Quickbooks® are registered trademarks of Intuit® Inc. Feature available for customers who have already purchased the financial management software Quicken® or QuickBooks®. **First State Bank does not provide or service the software.**
